

Stoner

Stoner® M226

Polyurethane Release

Product Description

Stoner® M226 Polyurethane Release is specially formulated as a release agent and anti-stick lubricant for polyurethanes and similar materials. It combines fast cure with outstanding chemical and abrasion resistance. Stoner® M226 leaves a thin layer of heavy-duty release agent which is highly effective for TDI and MDI cast urethane.

Stoner® M226 Polyurethane Release is ready-to-use and requires no dilution. Proper application results in superior release.

Uses

Stoner® M226 Polyurethane Release is used to release polyurethane, rubber, and epoxy from molds where parts will not require post finishing.

Direction for Use

Stoner® M226 Polyurethane Release should be applied by spraying, wiping, or brushing on to heated molds. Best application is achieved by applying a thin, even coverage coat using a spray system. Several light coats may be applied for a higher slip.

Storage and Handling

Stoner® M226 Polyurethane Release is supplied in solvent solution. CAUTION: FLAMMABLE. Use with adequate ventilation. Keep away from heat, sparks, and open flames. Avoid prolonged or repeated breathing of vapors. Avoid prolonged or repeated skin contact. Keep container closed when not in use.

Packaging

Stoner® M226 Polyurethane Release is available in:

- 5-gallon pail Part # M226PLSTON01
- 55-gallon drum Part # M226DRSTON01
