A612

Short Term Rust Preventive

Nonfood Compounds
Program Listed H2
161469

Product Description

Stoner® A612 Short Term Rust Preventive is a short term coating used as a mold protectant against rust and oxidation for overnight and weekend protection.

A612 seals out dampness and prevents rust and corrosion by leaving a thin film of rust preventive.

A612 leaves a thin film of rust preventive that dissipates during start-up and requires no cleaning.

A612 has received NSF® approval for use in food-grade molding. Bearing the NSF® Mark assures Stoner Molding customers that A612 Short Term Rust Preventive has been tested and approved by one of the most respected independent organizations in the world.

A612 Short Term Rust Preventive ADVANTAGES

- Prevents oxidation and corrosion.
- No start-up cleaning.
- Overnight & weekend protection.
- NSF® approval for use in food-grade plastic molding.

Uses

Stoner® A612 Short Term Rust Preventive provides short-term protection against moisture and oxidation. It prevents rust and corrosion from ruining exposed steel and stored metals overnight and on weekends.

Directions for Use

Recommended Procedure

Shake well before using. Hold can 10 to 12 inches from surface to be sprayed. Apply a uniform coating for best results.

Storage and Handling

Do not puncture or incinerate container. Do not expose container to heat or store at temperatures above 120 °F. Keep container away from and do not use near sparks, open flame, heated surfaces, or other ignition sources.

Packaging

A612 Short Term Rust Preventive is available in:

- 12-can case of 12 oz cans Part # A612
