

Get easier, cleaner urethane part removal with Stoner's

# E236 Urethane Mold Release

## ► Stoner E236 Urethane Mold Release

E236 provides fast, easy urethane part removal from molds and multiple part releases per application. Improves molding efficiency in many processes including injection, compression, transfer, vacuum form, pour cast, die cast, and extrusion molding.

Stoner E236 Urethane Mold Release is specially formulated as a release agent and anti-stick lubricant for molded urethanes. A light coating produces best results.

## ► Product Benefits

- Allows urethane parts release quickly and easily from molds
- Allows parts to be painted, hotstamped, or otherwise decorated
- Improves part appearance and reduces defects caused by sticking
- Provides high levels of user and environmental safety
- Contains no Class I or Class II Ozone Depleting Substances
- Contains no chlorofluorocarbon (CFC) or hydrochlorofluorocarbon (HCFC) propellants
- Contains no chlorinated solvents such as 1,1,1 trichloroethane or methylene chloride
- Colorless and non-staining
