

Stoner**Stoner® S261
SPINNERET LUBRICANT**

Operators Prefer Stoner S261 at Major EU Recycle Plastic Fibre Company

Stoner S261 Non-Ozone Depleting Spinneret Lubricant works well to clean and lubricate the spinneret used in production of carpet fibre, seatbelt fibre, tire cord, air bag fabric, textile fibre, and recycled plastic fibre.

Trial Results: After reaching out to the manufacturer through the International Fibre Journal, Stoner obtained an invitation to come and trial S261. Following trial, the feedback was:

- Operators preferred working with S261 because it wipes easier.
- S261 saved the manufacturer money.

Stoner S261 improves spinning performance and fibre quality.

Item # S261

Melted Fibre Opportunity: Manufacturers of recycled plastic fibre, seatbelt fibre, tire cord, air bag fibre, and textile fibre.

Available Products for the Industry:

- Best Solution: S261 for maximum efficiency.
- Alternative: Spin Max 282 and Spin Max 284

Stoner has a solution for virtually every molding application. If you can mold it, we can release it.
