TraSys® Rotational Mold Releases

Quarryville, PA (August 2014) — Stoner Molding Solutions is pleased to announce that TraSys®, the top performing and top selling brand of rotational mold release is now available from Stoner. The acquisition of the TraSys® product line makes Stoner the world's largest supplier of rotational mold release agents.

TraSys® products will maintain the same high standards of performance, quality, and service to which customers are accustomed. The TraSys® worldwide distribution network will remain unchanged so that the right product ships to the right place in the right package.

"TraSys® has a reputation as one of the highest quality rotational mold releases available," says Larry Whittemore, Global Product Manager for Stoner, Inc. "The same TraSys® products with the same high performance are available from the same sources as before."

TraSys® products deliver:

- **Performance** — TraSys® mold release agents use highly effective, stable raw materials. Product consistency, reliability and availability will keep your production running smoothly.
- **Reduced Environmental Footprint** — TraSys® water-based release coatings meet the most stringent environmental regulations without sacrificing production.
- **Personnel Safety** — The water-based technology in TraSys® mold release coatings helps molders avoid the challenges associated with solvents and alcohol.
- **Cost-Effectiveness** — The highest levels of performance and longevity, at a competitive price, can provide you with the most cost-effective mold release agents available.

The TraSys® product line compliments Stoner's existing Releasomers and Stoner brands of rotational mold releases. Stoner is a leading manufacturer of aerosol and liquid mold releases for the rotational, thermoplastics, thermoset, extrusion, polyurethane, rubber, and composites industries.

With over 70 years of molding experience, Stoner has a release solution for every molding material and process. "If you can mold it, we can release it," says Whittemore, "every resin, every process, every time." Stoner also provides world class customer service and technical support to make your experience easy.
